## 1. Who should use 49er MBE?

49er Mountain Biking Events is intended for college students interested in biking. Interest can range from casual road rides to advance downhill adventures.

All are welcome and because events are based in the charlotte area, those not attending UNCC can use the website as well.

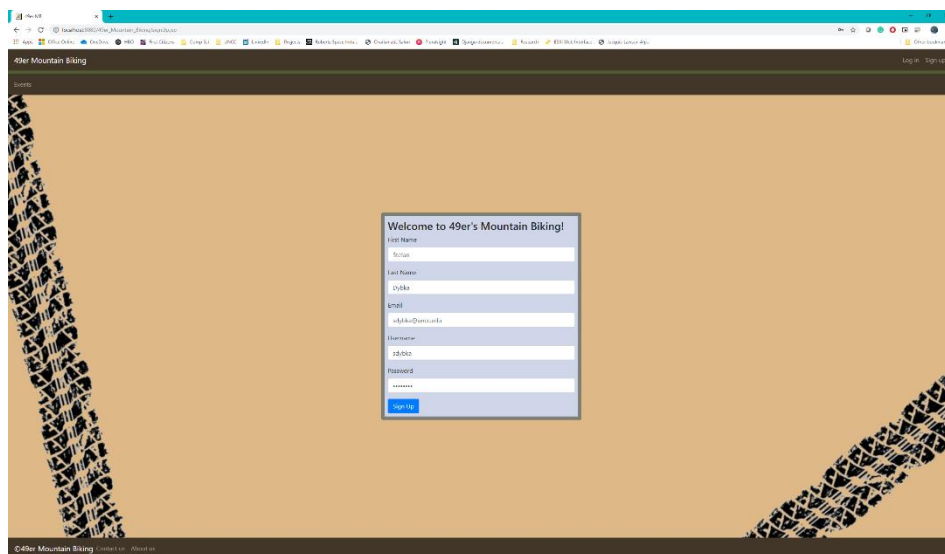

## 2. General Navigation

### 3. Account Creation

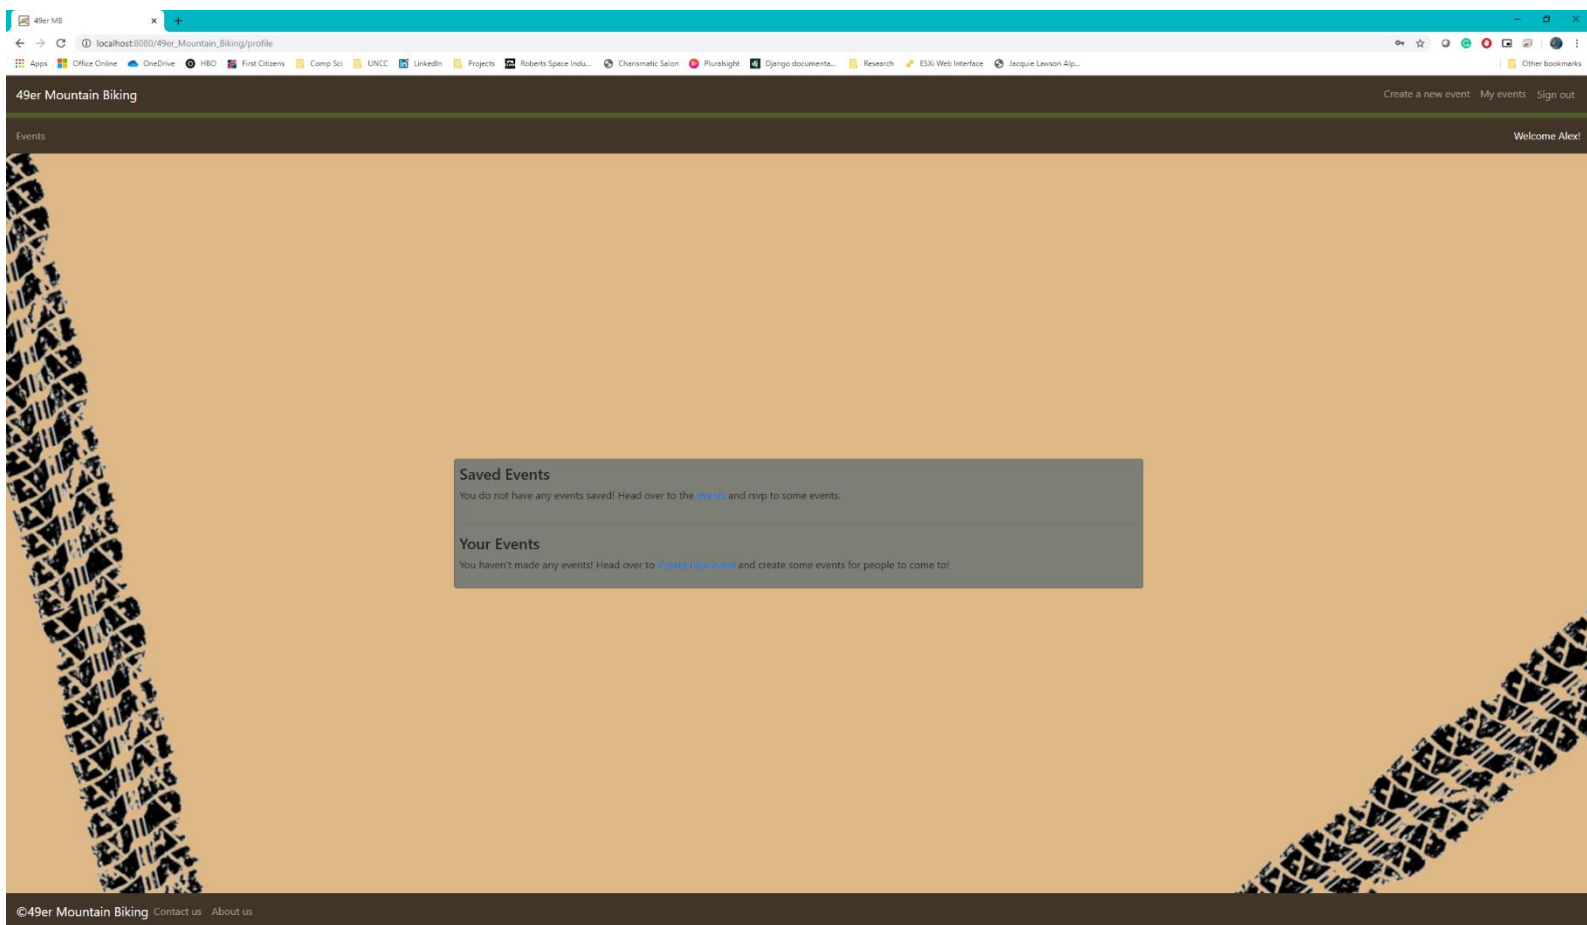

If you want to do anything other than just look at the events that are available, you're going to need an account. If you don't have one already, head over to the sign up page which can be found in the top right. Fill out the form with a valid email and we'll handle the account creation.

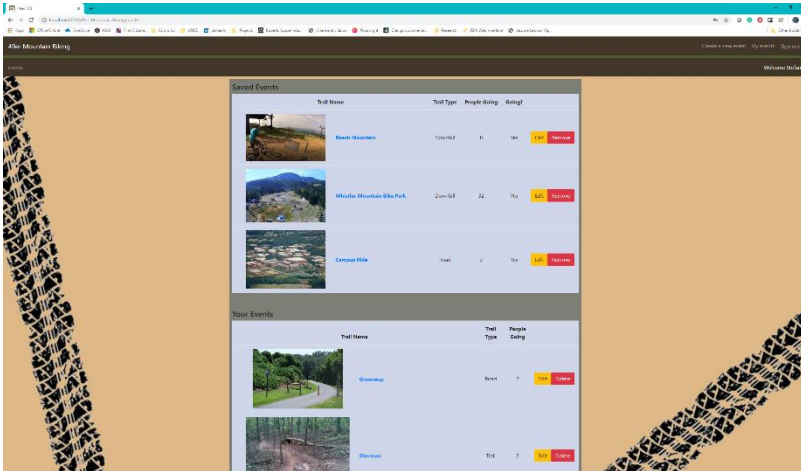

Once you have created an account with us, you can log in to access the full features of this website.

## 4. Event Management

Once logged in, you will be presented with your user profile which displays all events you've RSVP'd to as well as all events you have created. If you haven't created or RSVP'd to any events, this page will be empty.

Once you have some events displayed on this page, you will be able to edit or remove them.

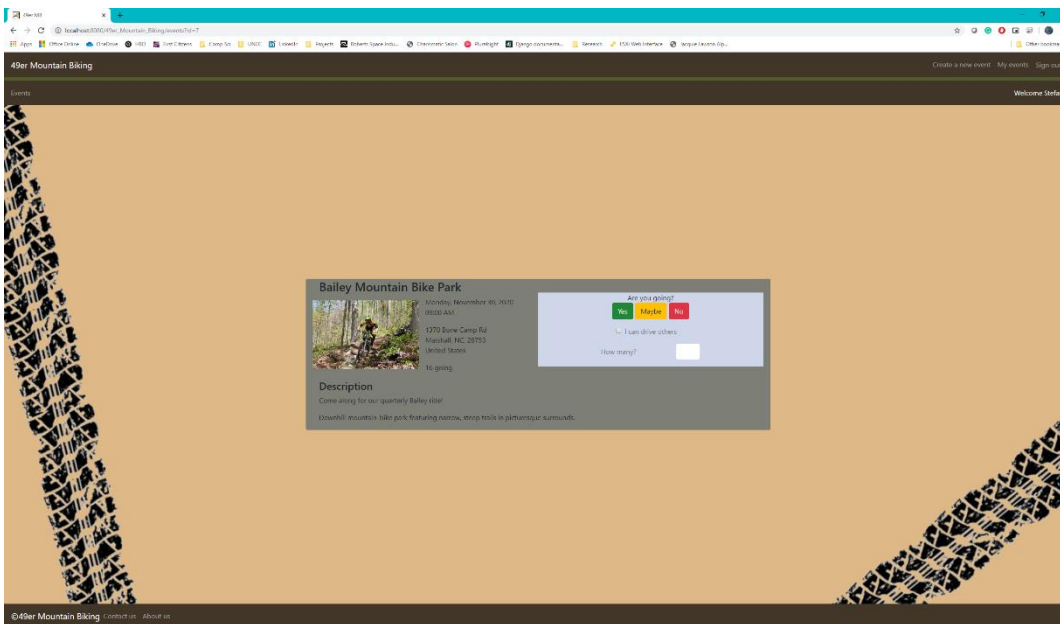

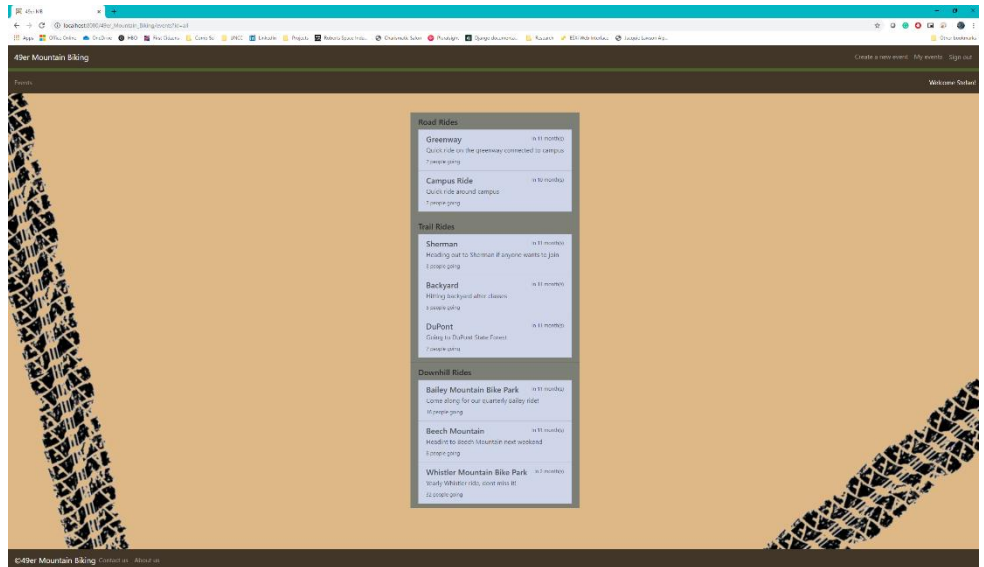

Editing events that you have RSVP'd to will allow you to change your RSVP status for the event and removing it will remove the event from your saved list and deletes your RSVP.

Editing events that you have created will allow you to change the event's details and deleting it will remove the event from the website.

To create a new event, click the "Create new event" link in the top left (after logging in) and fill out the form fields

## 5. RSVP'ing

To RSVP to an event, first browse the list of road, trail, and downhill events to find one you might be interested in going to.

Once you find an event that you are interested in going to (or not interested), click on the RSVP button that represents your status for going to the event (Yes, No, or Maybe)

The event will then show up in your saved events list on your profile
